PROFESSIONAL SUMMARY

Full-Stack Web Developer and BCA Student (CGPA: 8.43 | Sem 3 SGPA: 8.70) with practical experience building live web platforms, REST APIs, and database-driven content management systems. Co-founder of **Codenosis** (29 published technical guides) and creator of **Codenosis CMS**. Proficient in JavaScript, Node.js, Express, MySQL, JWT authentication, and responsive frontend design.

TECHNICAL SKILLS

Languages & Logic:	JavaScript (ES6+), HTML5, CSS3, C++, Python (basics), C (basics)
Frontend Stack:	React.js, Tailwind CSS, Bootstrap, CSS Grid/Flexbox, DOM Manipulation
Backend & Database:	Node.js, Express.js, MySQL, RESTful APIs, JWT Authentication
Tools & Workflows:	Git, GitHub, Netlify, Railway, Google Search Console, SEO Auditing

FEATURED PROJECTS

Codenosis CMS Node.js · Express · MySQL · JWT — codenosis-cms.up.railway.app

- Engineered a full-stack Content Management System to automate article publishing workflows for Codenosis.
- Designed a relational MySQL database schema with foreign keys and implemented JWT authentication for admin access.
- Built automated API endpoints that auto-generate exact article HTML cards and update `sitemap.xml` on publish.

Codenosis Co-founder & Lead Frontend Developer — codenosis.in

- Co-founded and deployed a live tech education blog covering DSA, JavaScript debugging, and developer roadmaps.
- Published 29+ technical articles, implemented custom search/filter, Disqus comments, and Google Analytics.
- Resolved Google Search Console indexing issues, adding Schema.org JSON-LD structured data and OpenGraph tags.

LuxeLane E-Commerce JavaScript · Performance Optimization — luxelane1593.netlify.app

- Developed a luxury e-commerce storefront with cart, wishlist, search filter, coupon modal, and toast alerts in 4 days.
- Achieved substantial Lighthouse performance gains by converting images to WebP and optimizing scroll events.

Funngro Revamp & SEO Audit Evaluation Case Study · SEO — funngro-revamp-1.netlify.app

- Built a 2-page evaluation revamp and conducted a full SEO audit of live site using real PageSpeed metrics.
- Identified real-world gaps between lab performance scores and actual user experience, plus unhandled broken redirects.

WORK EXPERIENCE

Freelance Web Developer · Self-Employed — June 2025 – Present

- Delivered responsive web applications from scratch for clients using clean HTML5, CSS3, JavaScript, and Node.js.
- Maintained 100% clean code standards without over-engineering simple client problems.

EDUCATION & CERTIFICATIONS

Amity University Online · Bachelor of Computer Applications (BCA) in CS — July 2024 – August 2027

Academic Record: SGPA: 8.70 (Semester 3) | CGPA: 8.43

Certifications: Full Stack Developer (Digital Online Courses) · Web Developer (Coding X) · AI for Beginners (Newton School of Tech) · Python Programming (Great Learning)
