## PROFESSIONAL SUMMARY

Full-Stack Web Developer and BCA Student (CGPA: 8.43 | Sem 3 SGPA: 8.70) specializing in building modern, high-converting SaaS product websites, REST APIs, and database-driven applications. Creator of **DeskHive** (Unified Customer Support SaaS Platform) and **Codenosis CMS**. Co-founder of **Codenosis** (29 published technical guides). Proficient in JavaScript, Node.js, Express, MySQL, JWT authentication, and mobile responsive design.

## TECHNICAL SKILLS

**Languages & Logic:** JavaScript (ES6+), HTML5, CSS3, C++, Python (basics), C (basics)  
**Frontend Stack:** React.js, Tailwind CSS, Bootstrap, CSS Grid/Flexbox, Responsive SaaS UI  
**Backend & Database:** Node.js, Express.js, MySQL, RESTful APIs, JWT Authentication  
**Tools & Workflows:** Git, GitHub, Netlify, Railway, Google Search Console, SEO Auditing

## FEATURED SAAS & WEB PROJECTS

**DeskHive — Unified SaaS Customer Support Platform**    [SaaS Web App](#) · [HTML5](#) · [CSS3](#) · [JS](#)    deskhive.netlify.app

- Designed & developed a modern SaaS platform bringing email, chat, social, and SMS into one unified queue.
- Implemented interactive demo simulator, LocalStorage auth modal with backdrop blur, ROI calculator, and pricing toggle.
- 100% mobile-responsive design optimized for speed, accessibility, and high conversion rates.

**Codenosis CMS**    [Node.js](#) · [Express](#) · [MySQL](#) · [JWT](#)    codenosis-cms.up.railway.app

- Engineered a full-stack CMS to automate article publishing workflows with MySQL relational DB and JWT auth.
- Built automated API endpoints that generate exact article HTML markup and update sitemap.xml on publish.

**Codenosis**    [Co-founder & Lead Developer](#)    codenosis.in

- Co-founded live tech blog with 29+ technical articles, custom search/filter, Disqus comments, and Analytics.
- Resolved Google Search Console indexing issues, adding Schema.org JSON-LD structured data and OpenGraph tags.

**LuxeLane E-Commerce**    [JavaScript](#) · [Performance Optimization](#)    luxelane1593.netlify.app

- Built luxury e-commerce storefront with cart, wishlist, search filter, and WebP performance optimization.

## WORK EXPERIENCE

**Freelance Web Developer** · [Self-Employed](#)    June 2025 – Present

- Delivered responsive web applications from scratch for clients using clean HTML5, CSS3, JavaScript, and Node.js.
- Maintained 100% clean code standards without over-engineering client problems.

## EDUCATION & CERTIFICATIONS

**Amity University Online** · [Bachelor of Computer Applications \(BCA\) in CS](#)    July 2024 – August 2027  
**Academic Record:** SGPA: 8.70 (Semester 3) | CGPA: 8.43  
**Certifications:** Full Stack Developer (Digital Online Courses) · Web Developer (Coding X) · AI for Beginners (Newton School of Tech) · Python Programming (Great Learning)
